

Student Support Services Policy and Procedure

1. Policy

This policy/procedure supports the requirements to provide student support services to all students. This policy also ensures that Strathfield College has sufficient support staff with all adequate facilities and resources.

This policy ensures that all students are given support at Strathfield College. This support includes both academic support, language support and personal support and the following procedures ensure that students are made aware of the support available.

There is no cost to access student support services provided within Strathfield College. There are also no costs for a referral to an external support service however accessing services outside Strathfield College may incur costs and student will be notified of this prior to engaging external support services.

2. Procedure

Strathfield College is committed to ensuring that all students receive support (wherever required) to adjust to life and study in Australia. The learning and support needs of all students are assessed upon entry into their course. Information to make this assessment is gathered through the information provided by the student on the application and/or enrolment forms, through LLN, discussion with the student during their orientation to the course about how to access the support services. All support services information will be regularly reviewed to ensure it is current and accurate. An adequate academic and student support staff to student ratio would be maintained. Strathfield College will ensure that high quality support and assistance is provided at all times and will maintain the following ratios:

- 1:15 Academic staff to student ratio for academic and language (LLN) support;
- 1:75 Student Support Services staff to student ratio.

In an event of any support sessions having student numbers exceeding the above-mentioned ratio for academic and language support, the support sessions will be divided into groups, with each group being allocated different support sessions, with no group exceeding a 1:15 ratio. Additional trainers and assessors will be sourced to ensure high quality support services are being provided to the students. The same strategy is applicable for the Student Support Service staff also. If the number exceeds the ratio of 1:75, additional support staff will be employed or contracted, some of which will have formal qualifications in counselling and/or relevant experience who is able to advise and provide counselling to students in an intercultural context about language, academic and future progressive advice and welfare matters.

To achieve this, Strathfield College will employ or contract VET trainers and assessors for the minimum duration of 40 hours every week (full time trainer/assessor) for delivery and assessing and additional 8 hours of academic support or pro-rata (whenever and wherever applicable). The student support staff will be employed or contracted.
